Employment

Delete.™

Senior Designer
2014 - Present

At Delete I've been able to increase my design, UX and client based skills, leading a number of different projects for clients such as Sequence, Rackspace, Harris, Teva, Carter Jonas, Jet2 and Leeds Beckett.

As well as hands-on designing, I really enjoy speaking to clients on a daily basis, meeting them face-to-face from initial launch right through to delivery.

Projects vary from campaign work, to websites and apps.

twentysix life online

Junior - Senior Designer
2008 - 2014

At twentysix my work was strictly design based. Clients such as Wella, Hugo Boss, Pringles, Silentnight, Bennetts, Sassoon, Nice & Easy, NHS Blood and Iams.

donate to my Movember team. The concept I came up with was simple, every person who donated to our team through the website would receive a bespoke moustachioed portrait of themselves illustrated by one of the many artists who signed up each year.

Designing websites, mobile and tablet apps, viral campaigns and education material.

I also was able to have the support of Twentysix to create an internal charity project called Gallery of Mo.

Over the last 5 years, Gallery of Mo has helped raise over £30k. The guys at Movember loved it so much that, even though I'm no longer with the agency, the project is now run by them. To date, this has been my proudest achievement.

Gallery of Mo was my answer to a personal challenge on how to encourage people I don't know to
